

EDUCATION

Jomo Kenyatta University of Agriculture and Technology (JKUAT) - Nairobi, Kenya

BSc. Computer Technology

First Class Honours (Graduated 5 Dec, 2025)

Sep 2021 – Dec 2025

EXPERIENCE

Software Development and Technical Support (Volunteership)

Oct 2025 - Present

TCLA-X – Nairobi, Kenya

- ❖ Developing the TCLA-X Learning Management System Frontend while integrating with the backend.
- ❖ Managing the APIs as well as the Django backend.
- ❖ Maintaining the organization digital presence and building products.

Data Entry Executive

Dec 2025 -Mar 2026

Decasa Hotel – Nairobi, Kenya (Hybrid)

- ❖ Verified and analyzed receipt books for missing entries and reconciliations, ensuring data integrity and accurate running balances across records.
- ❖ Performed data entry and transfer from over 100 physical receipt books across 10+ operational units into a centralized digital system.
- ❖ Conducted validation checks to ensure completeness, consistency, and correctness of all entered financial data before final submission.
- ❖ Generated summaries and reports to support financial tracking, reconciliation, and decision-making processes.

Content Digitization and Technical Assistant

Jun 2025 – Aug 2025

AENI International – Nairobi, Kenya

- ❖ Developed and digitized curriculum content for various age groups to ensure 90% availability of the content with above 0.8 system performance.
- ❖ Optimized content responsiveness across varied devices while focusing on enhanced user experience

Undergraduate Research: Tomato Crop Health Monitoring & Disease Detection

Sep 2024 – May 2025

JKUAT – Nairobi, Kenya

- ❖ Developed an Android application integrating IoT sensor data (soil moisture, temperature, humidity) with machine learning models for early tomato disease detection.
- ❖ Implemented a virtual assistant using the Natural Language Processing concepts of tokenization, semantic analysis, part-of-speech tagging, and named entity recognition (NER), thus improving response accuracy by 50% compared to manual traditional responses and maintaining 90% system uptime.
- ❖ Achieved a 70% improvement over traditional manual diagnostic accuracy, reducing crop losses and minimizing reliance on manual guesswork.

Intern, Digital Financial Services

May 2024 – Aug 2024

Kenya Commercial Bank Limited – Nairobi, Kenya

- ❖ Reviewed and tested the designs of the super app that was in development, thereby giving reviews from an end user view to ensure the designs offered great user experience
- ❖ Conducted data protection compliance analysis on the mobile banking super-app ensuring optimum data compliance and optimum system standards.
- ❖ Coordinated with 4 telecommunication service providers to analyze the customer data of over 1 million customers and develop customer scorecards, and in the development of the Scorecard for the Financial Inclusion Fund, a product that is aimed at repairing the customer scores.

TECHNICAL SKILLS

- ❖ **Programming Languages:** Python, JavaScript (ES6+), SQL, Dart, Kotlin
 - ❖ **Frameworks & Libraries:** Flask, Node.js, Flutter
 - ❖ **Web Technologies:** React, HTML5, CSS3, RESTful APIs, AJAX, JSON
 - ❖ **Testing & Quality Assurance:** Playwright, Postman, Jira, Confluence
 - ❖ **Developer Tools & Platforms:** Git, VS Code, Android Studio
-

CERTIFICATIONS

- ❖ Exploring Product Engineering in SAP S/4HANA - [Certificate](#)
 - ❖ Exploring Fundamentals of SAP S/4HANA Cloud Public Edition, Professional Services - [Link](#)
 - ❖ Software Development - Power Learn Project (Dec 2024) - [Certificate](#)
 - ❖ Aspire Leaders Program Certified (Nov 2024) - [Certificate](#)
 - ❖ ALX Software Engineering Certified (Jun 2023) - [Certificate](#)
 - ❖ Microsoft Azure Certified - AZ-900 (Jun 2022) - [Certificate](#)
 - ❖ Capacity and Team Building Training by Zoe Consultants Africa. - [Certificate](#)
-

PROJECTS

TCLA-X Company Website - Nairobi, Kenya

Jun 2025 – Aug 2025

- ❖ Built and deployed a full-stack company website using Next.js, React, and Tailwind CSS, hosted on Vercel, to establish the firm's online presence.
- ❖ Integrated dynamic content management with TypeScript and REST APIs with Json data, enabling real-time updates of services, company team profiles, and testimonials.
- ❖ Implemented responsive, SEO-optimized UI/UX that improved site accessibility and brand visibility across devices.

Tomato Crop Health Monitoring & Disease Detection Mobile Application

Sep 2024 – May 2025

JKUAT – Nairobi, Kenya

- ❖ Developed an Android application that integrated IoT sensor data (soil moisture, temperature, humidity) with machine learning models for early tomato disease detection.
- ❖ Implemented a virtual assistant using the Natural Language Processing concepts thus improving response accuracy by 50% compared to manual traditional responses and maintaining 90% system uptime.

Expense Tracker Application – Nairobi, Kenya

Jan 2024 – Aug 2024

- ❖ Developed an Android application using Kotlin and Firebase with a Python backend, supporting real-time expense logging and retrieval.
 - ❖ Implemented secure authentication, expense categorization, and interactive dashboards for spending analysis.
 - ❖ Achieved 97% uptime, high response time, and supported 10 user transactions daily during testing, improving accuracy of expense tracking by over 40% compared to manual logs.
-

VOLUNTEERING EXPERIENCE

Member, Global Admissions Committee (GAC), Millennium Fellowship Class of 2026

Millennium Fellowship

Feb 2026 - Mar 2026

- ❖ Reviewed and evaluated approximately 30 applications from prospective Fellows across diverse universities and regions.
- ❖ Assessed candidates based on leadership potential, social impact experience, and commitment to advancing the UN Sustainable Development Goals (SDGs).
- ❖ Contributed recommendations to the admissions process, helping identify high-potential student leaders for the global Fellowship cohort.

Nova Pioneer Schools – Kenya

Volunteer Judge | Innovation & Career Week |

Mar 2026

- Served as a volunteer judge during the Innovation & Career Week themed around SDG 14: Life Below Water and SDG 13: Climate Action.
- Evaluated 10+ student innovation projects in a physical setting, assessing creativity, technical execution,

environmental relevance, and real-world impact.

- Conducted structured Q&A sessions with student teams, critically reviewing design decisions, feasibility, and sustainability considerations.

Campus Director, Millennium Fellowship 2025

Millennium Fellowship

Aug 2025 - Dec 2025

- ❖ Led and mentored a cohort of 26 Fellows at Jomo Kenyatta University of Agriculture and Technology, facilitating weekly leadership and social impact sessions.
- ❖ Served as the primary liaison between the Fellowship's global leadership team and campus Fellows.
- ❖ Coordinated and supported the implementation of SDG-aligned social impact projects, fostering collaboration, innovation, and community engagement.
- ❖ Promoted a culture of empathy, inclusion, and ethical leadership while ensuring Fellows received guidance and support throughout the program.
- ❖ Recognized by the Millennium Fellowship for exemplary leadership, strategic coordination, and contribution to lasting campus and community impact.

Young Scientists Kenya (YSK) – Nairobi, Kenya

A national STEM outreach program modeled on BT-Young Scientists Ireland, giving high school students a platform to showcase research and innovation.

Tech Judge (Virtual & Physical)

Jul 2025 - Aug 2025

- ❖ Evaluated 9 Technology projects remotely, reviewing documentation, testing prototypes where possible, and providing structured scoring with written feedback.
- ❖ Assessed 6 Technology projects on-site, engaging with student teams through Q&A, probing technical design choices, and delivering fair, evidence-based evaluations.

Tech Judge (Virtual)

Jun 2024 - Jul 2024

- ❖ Judged 8 projects in the Technology category during the national-level fair, providing written feedback and structured evaluation.

NET Ministries Trust – JKUAT

NET Ministries is a Christian outreach and discipleship movement for university students that focuses on spiritual growth, missions, and community service.

Chairperson

Oct 2023 – Nov 2024

- ❖ Organized and led a mission to Kisumu City - Kenya, by mobilizing Kshs. 250,000 in support through making and selling samosas, sale of t-shirts and bookmarkers, and engaging well-wishers through direct appeals.
- ❖ Coordinated welfare initiatives for students from under-resourced backgrounds, securing educational and personal support valued at Kshs. 1,000 – 5,000 per beneficiary

Chairperson, Instruments Acquisition Committee

Jan 2023 – Oct 2023

- ❖ Mobilized funds through sales of sweets, samosas, gift items, organized fundraisers, and direct donation appeals, raising about Kshs. 200,000 to acquire instruments for community outreach.

Organizing Secretary

Jan 2022 – Oct 2023

- ❖ Planned and coordinated 3 major prayer retreats, managing logistics and budgeting that consistently drew 35–40 participants, strengthening fellowship and spiritual growth.
- ❖ Organized 6 bonding and team-building activities and sessions and sourcing facilitators that increased member participation by over the year through enhanced accountability
- ❖ Facilitated welfare support initiatives by sourcing resources from university student union and the Christian union worth Kshs. 50,000, providing educational and personal assistance to 4 students facing challenges.

Anglican Church of Kenya (ACK) – Ogande Parish (Southern Nyanza Diocese)

The ACK is one of the largest Christian denominations in Kenya, with a parish having 2 or more churches

Youth Secretary

Dec 2020 – Dec 2023

- ❖ Organized 8 youth rallies and conferences with an average turnout of 200 participants, addressing faith, drug and substance abuse, academic excellence, and employment challenges, which strengthened youth mentorship and community impact.
 - ❖ Coordinated 2 community visits to local homesteads, combining devotion with distribution of essential items that supported about 18 disadvantaged families.
